Subject: RE: Testimonial

I want to let anyone that is looking at Dominion Plaza for office space know what a great facility this is. I am in my 12th year here. The staff is always quick to help with maintenance that is necessary. Light bulb changes are done within a few hours. The security is great. They patrol the property regularly. The facility has a parking garage with both reserved and not reserved spaces. In bad weather threats it is easy to move all of our cars into the garage. MY patients never have a problem finding a parking spot that suits their needs. The exterior of the property is always very well groomed. I love having the ability to walk to the main building and get breakfast, a drink or a healthy lunch at the store. Even the mail people go the extra mile. If you have a package that is too large for your box they will deliver it to your office. There are also convenient boxes for UPS and FEDEX. I couldn't ask for a better facility.
