Murray, it is with great pleasure that I write to you expressing my great satisfaction with you, and the entire Dalfen America Corp. team.

Having invested in many real estate projects over the years, both domestically, and international markets, I must frankly state, that one of the best investments, if not the best, that I have made to date was first in Asherei II and which due to the continued great results, now have invested with a larger sum in Asherei III. What is especially impressive are the continuous informative and clearly stated updates as events unfold.

I am extremely pleased with the past, and ongoing results, and look forward to a continued relationship with you, and the Dalfen America Corp team.

With best regards, Marcel
